BMAP Reporting

MS4 permittees are NOT required to submit the annual report required by any BMAP that applies to them since the NPDES Stormwater Staff can obtain them from the department's Watershed Planning and Coordination staff. However, to assure that the stormwater staff are aware of which BMAPs apply to the MS4 permittees and when the latest BMAP annual report was submitted, please complete the information below, if applicable:

Stormwater Management Program (SWMP) Effectiveness - 2014

Part VI.B.2.

- The ANNUAL REPORT shall include as an attachment an evaluation of the effectiveness of the permittee's SWMP in reducing pollutant loads discharged from the MS4. At a minimum, the permittee shall attach to the ANNUAL REPORT an explanation of how its SWMP is addressing each of the following:
 1. Have stormwater pollutant loadings discharged from the MS4 decreased? Why or why not? *The Town is and has been aggressive in litter collection. Added recycling, animal waste collection, and fishing line facilities at ramp and 2 parks. Public awareness and staff training are being continued and should therefore result in reduced loadings.*
 2. Which components of the SWMP are working well and are effective in reducing stormwater pollutant loadings? Why are they effective? *Measurably; the litter collected is recorded. Not measured are resident and staff attitudes and habits that may reduce loadings.*
 3. Which components of the SWMP are not working well and need to be revised to make them more effective in reducing stormwater pollutant loadings? *There are no known programs that are not effective.*
 4. Which components of the SWMP do not contribute to reducing stormwater pollutant loads and could be revised or eliminated, and why? *None.*
 5. Is the monitoring program providing data that can be used to assess the effectiveness of the SWMP in reducing stormwater pollutant loadings, assess the effectiveness of specific BMPs, and determine where stormwater-retrofitting projects should be prioritized for implementation? *The monitoring is by the group as is the effectiveness assessment.*
