Fiscal Impact to NPDES Program

The expenditures incurred by the Town of Cloud Lake to implement the FY 14/15 NPDES Stormwater Permitting Program decreased from those expenses incurred during FY 13/14. Total expenses incurred by the Town related to the NPDES Program and, as reported in the FY 13/14 NPDES Annual Report, was \$ 23,806 compared to \$ 13,960 in FY 14/15 representing an approximate 40% decrease in total expenditures required to implement the program. The primary reasons for this decrease is attributed to: 1) a decrease in costs to implement the aquatic weed control program and other related clean-up expenses at the Lake (detention pond); and, 2) the costs for consulting services decreased nearly 36% from the previous permit year as more involvement was shifted to 'in-house' staff reliance. The Town has increased its budget in FY 14/15 in anticipation of increased administrative costs to implement the NPDES program. These changes have had no negative impacts on implementing the Town's annual NPDES Program.
