Re: Belle Glade MS4 Year 1 Annual Report Review

Dear Ms. Bull:

We are in receipt of your email and comments regarding the City of Belle Glade's MS4 Year 1 Annual Report review. Below are a list of your comments with our responses in bold.

1. Submit an inventory (list, ID number, location, size of pipe, etc.) of major outfalls.

See attached inventory list of major outfalls.

- 2. Were only 2 major outfalls inspected, or were 6 outfalls inspected twice in the reporting period? Report the total number of inspections per type of facility.
  - Six (6) outfalls were inspected twice, for 12 total inspections. The report form has been corrected.
- 3. See Comment above. Were all nine miles of pipe inspected in one inspection, or were 9 miles inspected throughout the year?
  - Nine (9) miles were inspected throughout the year, as part of activities by Public Works staff.
- 4. Submit a plan to train field crew the current reporting period. If reporting mowing as illicit discharge inspections, mowing crew needs to have illicit discharge training. I suggest contacting Mock-Roos for Excal videos.
  - A request has been made to MRA to check out the Excal videos (Illicit Discharge Detection and Elimination) during the month of May for training the field crew. A sign-in-sheet will be used to document participants.
- 5. Submit a plan to train maintenance staff the current reporting period. Need to train staff that handle chemicals, including maintenance yard staff that change oil, fuel vehicles, patch roads, etc. I suggest contacting Mock-Roos for Excal Videos.
  - A request has been made to MRA to check out the Excal videos (Raincheck, and Municipal Stormwater Pollution Prevention) during the month of May for

training the maintenance staff. A sign-in-sheet will be used to document participants.

6. Part VII.A.7.g.: If no spills or inflow discovered, report 0.

The number of SSO Incidents discovered and Inflow/Infiltration incidents discovered have been changed from N/A to zero.

7. Part III.A.9.b.: Report the number of private sites.

The number of active private construction sites inspected is two.

8. Submit a plan to train construction staff during the current reporting period. Confirm if construction site inspector has DEP Erosion and Sediment Control training. Provide refresher training for inspector and site plan reviewer. Suggest checking out Excal video from Mock-Roos. This items was discussed during the Year 6 audit.

The following City of Belle Glade personnel have registered for the DEP Sediment and Erosion Control training to be held on May 23 and 24, 2018:

Christopher Williams – Public Services – Facilities Manager
Ralph Butts (refresher) – Planning & Building Manager
Mickel Pringle – Code Enforcement
Annette Parchment – Director of Planning & Community Redevelopment
Services

Sincerely,
