

## **Part III.A.1**

### **C - Maintenance Reports**

#### **Summary of Quantities**

In the *Storm Line Cleaning* Excel sheet, Column J is the line length cleaned in feet (41,658 feet) and column M is the number of debris tanks dumped (32 tanks at 1,000 gallons each for 32,000 gallons or 4,278 cubic feet of debris.) The number of catch basins cleaned is 213 basins that were cleaned and documented on the cleaning log.
